## **Shipping Instructions**

---

We ship by Express and Parcel Post because freight is slow and travels at purchaser's risk. The difference in cost in the two doesn't justify one taking the risk.

Don't hesitate ordering in freezing weather as we carefully pack against freezing, and express companies take the utmost care in handling perishable goods.

In conclusion we wish to thank our many customers for their past business and hope to serve you in the future; assuring you always of a prompt, courteous service and ready to correct any errors.

If we please you tell others, if not, tell us.
